

# Zebedee

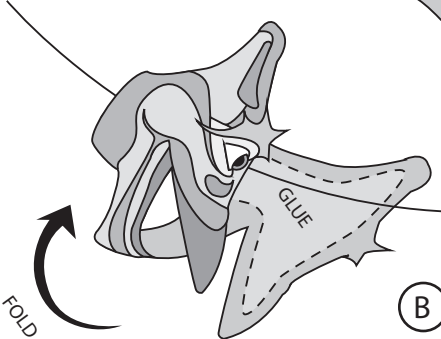

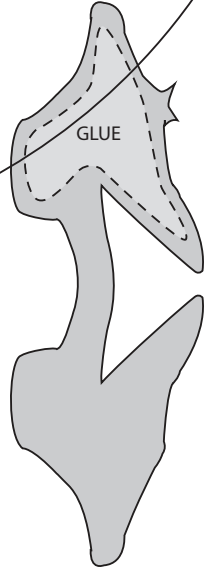

paper / string puppet

- YOU WILL NEED:**
- **String or yarn** - adjust the lengths as needed (head string and tail string will both be about 12 inches, wings about 24 inches)
  - **Thick cardboard or wooden stick** for controller (about 12 inches long)
  - **Hole punch and glue** (or tape, if desired)

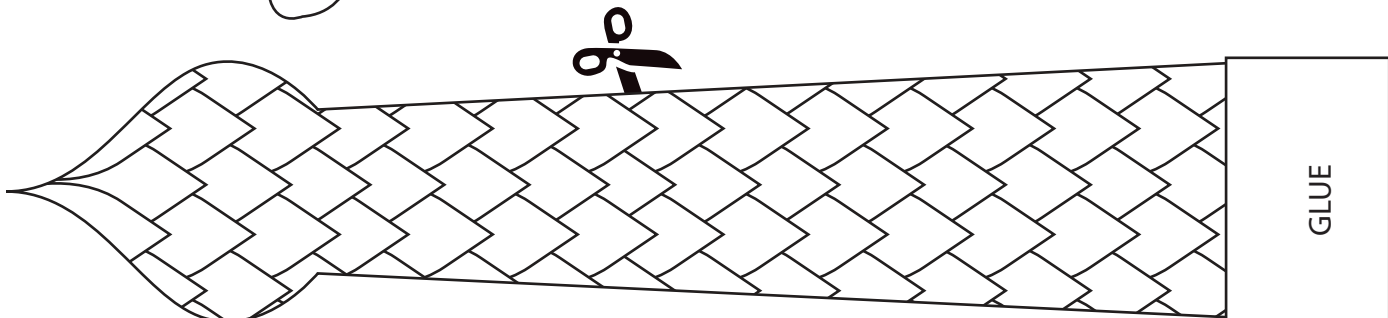

By pulling up on the string attached to the wings you can make the pterodactyl fly!

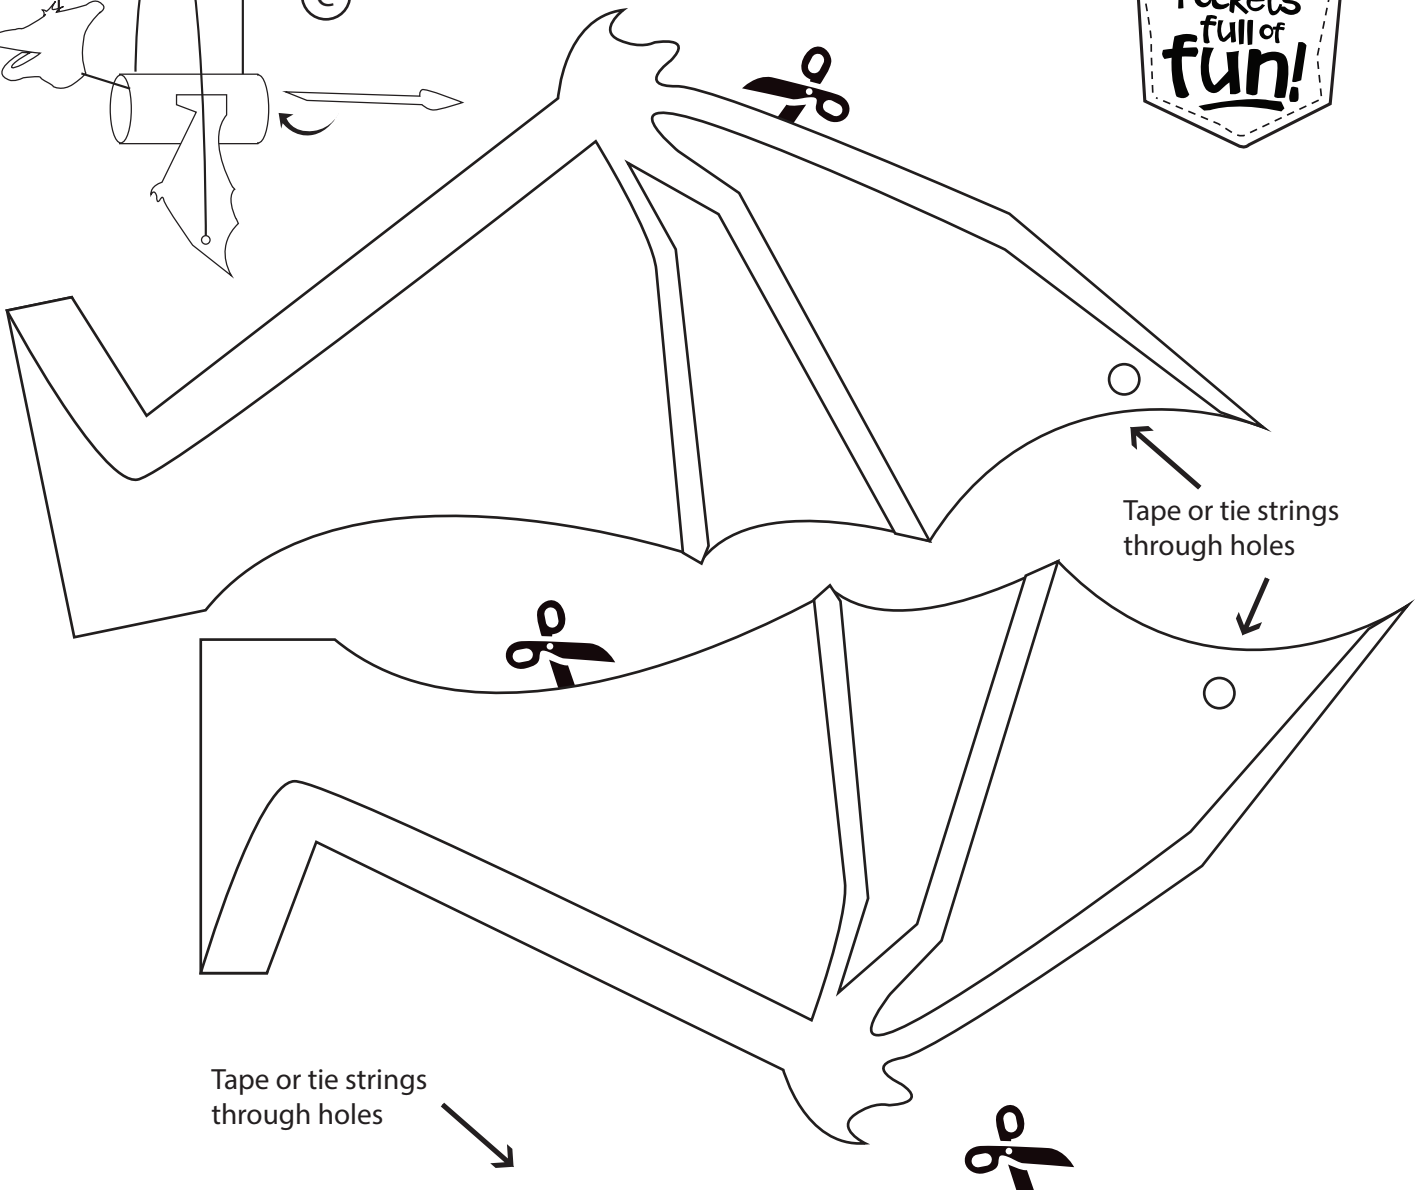

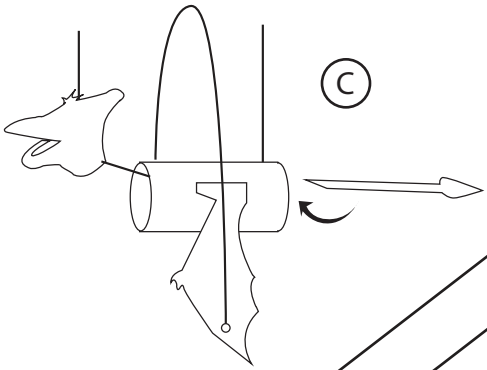

(A)

(B)

Tape or tie strings through holes
